Acknowledgement

I first take the opportunity to convey my heartfelt gratitude to Dr. Hemanta Kumar Baruah, Professor, Department of Statistics, Gauhati University, who guided my research works. His inspiration and generous help to work in the field of fuzzy mathematics went a long way in overcoming all my shortcomings in this field.

My heartfelt gratitude goes to the Heads of the Department of Mathematics, Gauhati University, Prof. N. R. Das and Prof. T. K. Dutta, for allowing me to pursue the research work in the Department of Mathematics of the University and helping me in all respects enabling me to complete my work smoothly.

I am thankful to both Principal and Head of the Department of Mathematics, Assam Engineering College, Guwahati, for permitting me to pursue the research work at Gauhati University in the Department of Mathematics.

My thanks also go to Dr. Pranita Goswami, Department of Statistics, Pragjyotish College, Guwahati, for her help at the time of need.

I thank my husband, Mr. U. C. Das, Dy. Registrar (Admn.), IIT Guwahati, for his sincere encouragement, help and official guidance. I cannot resist thanking both my daughters, Aku and Olympia for their patience and cooperation during my research work at home. I am also grateful to my mother, brothers and sisters for their encouragement.

Finally, I remember my deceased father late Dinabandhu Das, from the core of my heart, without whose spiritual inspiration this present research work would not have been possible.

Date: March 15, 2005

(Ms. MAKANI DAS)
Sr. Lecturer, Department of Mathematics
Assam Engineering College, Jalukbari,
Guwahati - 781013, Assam.
