CERTIFICATE	iii
DECLARATION	iv
ACKNOWLEDGEMENTS	v
ABSTRACT	vi
CHAPTER 1 INTRODUCTION	1
References.....	13
CHAPTER 2 SOLITARY WAVES IN A WARM PLASMA WITH NEGATIVE IONS AND DRIFTING EFFECT OF ELECTRONS	15
2.1 Introduction.....	15
2.2 Basic equations.....	16
2.3 Derivation of the Korteweg- de Vries (KdV) equation	18
2.4 Solitary wave solution.....	23
2.5 Discussion.....	23
References.....	25
Figures.....	26
CHAPTER 3 THE ROLE OF THE DRIFT MOTION OF ELECTRONS IN THE FORMATION OF ION ACOUSTIC SOLITON IN A PLASMA WITH NEGATIVE IONS	33
3.1 Introduction.....	33
3.2 Basic equations.....	34
3.3 Derivation of the Korteweg- de Vries (KdV) equation	35
3.4 Discussion.....	40
References.....	41
Tables.....	42
Figures.....	44

CHAPTER 4	KINETIC ALFVÉN SOLITONS IN A LOW-β PLASMA UNDER THE INFLUENCE OF ELECTRON DRIFT MOTION	51
4.1	Introduction.....	51
4.2	Basic equations.....	53
4.3	Derivation of the Sagdeev potential.....	53
4.4	Criteria for the existence of solitary Alfvén waves.....	58
4.5	Discussion.....	59
	References.....	60
	Figures.....	61
CHAPTER 5	KINETIC ALFVÉN SOLITONS IN A WARM LOW-β PLASMA WITH ELECTRON DRIFT MOTION	65
5.1	Introduction.....	65
5.2	Basic equations for the dynamics of the motion.....	67
5.3	Sagdeev potential for the solitary Kinetic Alfvén waves.....	68
5.4	Conditions for the existence of solitary Alfvén waves.....	72
5.5	Discussion.....	73
	References.....	75
	Figures.....	76
CHAPTER 6	STUDIES OF INSTABILITIES UNDER THE DRIFTING EFFECT OF ELECTRONS OF KINETIC ALFVÉN WAVES IN PLASMA	79
6.1	Introduction.....	79
6.2	Mathematical formulation.....	80
6.3	Numerical analysis of Buneman type of instability.....	83
6.4	Discussion.....	86
	References.....	88
	Figures.....	89
APPENDIX I	92
APPENDIX II	96
