FURTHER SCOPE

1. It is a literary type of study. The work in this Thesis will be used for Experimental or Clinical evaluation of various concepts in different subjects like Roganidana or Chikitsa-Panchakarma.

2. Discussion part will be helpful as a ready collection for Chikitsa point of view in various diseases.

3. A suitable Ek-moolika Dravya can be chosen with the help of this Thesis by applying Rasavichara.

4. Viruddhakalpana related to Rasa-Dosha will be helpful to design new proprietary drugs and also to avoid ADR
LIMITATIONS

Charaka himself has quoted the limitations of this concept as it is not useful in Anekshoja and Vikrutivishamasamavaya. (CH.VI.1)

तत्र खल्वनेकरसेषु द्रव्येण्णनेकदोषात्मकेषु च विकारेषु रसदोषप्रभावमेककस्यनामाभिमिक्ष्यते ततो द्रव्यविकारयोऽप्रभावतत्वं व्यवस्येत्।१९।

न त्वेवं खलु सर्वत्र। न हि विक्रृतिविषमस्वयं नानात्मकातिन्यं परस्परं चोपहतानामन्यैश्व विकल्पनेनु-विकल्पितानामविशेषप्रभावानुमाननेत्र समुदायप्रभावतत्वमध्यवसातः शान्त्यम्।२०।

तथायूः के हि समुदये समुदायप्रभावतत्वमेवमेवोफलभ्य ततो द्रव्यविकारप्रभावतत्वं व्यवस्येत्।२१।
