10. Epilogue

1. Our study clearly indicates the interest in the management course for practicing doctors in Greater Mumbai. No doctor said that they were not interested.

2. The 1075 doctors indicated that they would like to learn about management if a separate course was offered especially for doctors.

3. The doctors indicated that the course should be a short one which they would like to attend. It could be for a period of 3 to 6 months.

4. The doctors indicated that they want to learn various management subjects but there is no clarity as such. The topics in which the doctors were most interested are – Finance Management, Marketing, Hospital Management, Human Resource Management, Patient Management, Investment Management, and Time Management.

5. The preferred days for practicing doctors were Saturday evening and Sunday was the most preferred.

6. Interestingly enough, most doctors indicated that they would like to receive certification at the end of the course.

7. These findings clearly indicate that practicing doctors feel that a course in management can be very beneficial to them.
