APPENDICES
APPENDIX - A

Dear Teachers / Parents,

I am undertaking some research work under the Gauhati University on the 'Social Development of Pre-school children'. In this connection, I intend to study the development of your student/child along with other children. For this, I need your kind help and co-operation.

Kindly fill in the particulars given in the form below. I am also enclosing an observation schedule designed to study the social behaviour of children. This schedule is to be filled up as per instruction given therein. I do hope that this study would throw some light on the impact of pre-school education on the social development of children and would also give us some idea as to the effect of early childhood education.

I remain grateful for your valuable time and kind co-operation.

Thanking you,

yours sincerely,

GAYATREE GOSWAMEE.
