A NOTE ON METHODOLOGY

In transliteration of the examples methods adopted are.

1. Phonetic symbols as per I.P.A. chart have been used whenever possible. In case of fricative in Assamese 'z' for  and  and  for  are used while for Hindi  and  and  for  and  respectively have been used.

   Velar nasal symble  in Assamese and  for its Hindi counter part are used.

   For velar fricative sound  is used in Assamese  and  for  and  in Assamese and  and  for Hindi  and  are used.

2. ~ for nasalization, √ as root marker, 'derived from' are also used when necessary.
