ACKNOWLEDGEMENT

The author finds it a pleasure to express his profound gratitude and indebtedness to Dr. N. K. Baishya, M.Sc., Ph. D., Professor, Department of Chemistry, Guwahati University and Dr. G. Barman, M. Sc., Ph. D., Geologist (Sr), Geological Survey of India, for their constant encouragement, constructive suggestions and able guidance in carrying out this research and finely completion of the same as well as the thesis thereupon.

A deep sense of indebtedness is expressed to the late D. B. Ghosh, Deputy Director General (G), Geological Survey of India, North Eastern Region, Shillong, for kindly giving permission to carry out the research work and to utilize the laboratory and library facilities of the department.

Sincere thanks is due to Dr. Md. Zaffar, M. Sc.(Chem.), M.Sc. (Geol.), Ph. D., Chemist (Sr), Geological Survey of India, for his encouragement and valuable suggestions to carry on the research.

The author owes a lot to Mr. A., K. Bora, M. Sc.(Geol.), Geological Survey of India, North Eastern Region, Shillong, for extending helpful hand during the course of field work and sample collection.

Sincere thanks are also due to the colleagues of the author in the Chemical Division, Geological Survey of India, for their help and co-operation during the analytical works in connection with the research.

The author is very much indebted to Mr. S. Chakraprity, Geologist (Jr), Mr. P. K. Sen (Jr. Tech. Asstt.) and their colleagues in the Petrology Division, Geological Survey of India, N.E.R., Shillong, for extending help and guidance during the petrological studies of the rock and mineral samples.

A lot of thanks go to the Regional Sophisticated Instrumentation Centre, Shillong and State Public Health Laboratory, Govt. of Assam, Guwahati for Infra-red Spectra studies and fluorine estimation of the samples respectively.

A deep sense of gratitude is also expressed to a number of friends for their sincere co-operation and help in many ways.

The author owes a debt of gratitude to his parents for their encouragement and blessings for carrying out the research.

Last, but not the least, a lot of thanks go to Mrs. Aradhana Saikia, the wife of the author, who has been a constant source of encouragement and sacrificed a lot from domestic life.
