ACKNOWLEDGEMENTS

It is difficult to overstate my gratitude to my beloved, demonstrative teacher and Ph.D mentor, Prof. T. VASANTHI, Department of Applied Mathematics (on lien to Yogi Vemana University), Sri Padmavathi Mahila Visvavidyalayam, Tirupati and Dean, School of Mathematics & Computer Sciences, Yogi Vemana University, Kadapa for providing me with the most incredible environment in which I was free to think and assist all through the course of this investigation without her encouragement and affectionate help, I would not have accomplish this research work. I hope to serve her proud in my career.

My sincere thanks to Prof. G. SAROJAMMA, Prof. B. MAHESWARI, Prof. A. LEELA RATNAM, Head of the Department of Applied Mathematics and Mrs. C. VENKATA LAKSHMI for assistance at every stage during the course of my doctoral programme.

I specially thank to Prof. K. SATYANARAYANA REDDY, Department of Economics, Yogi Vemana University, Kadapa for his valuable suggestions and encouragement.
I am thankful to my research colleagues especially Smt. N. SULOCHANA for their assistance and encouragement.

There are no words to express my profound sense of gratitude to my father Sri. Y. SIDDAR REDDY, my mother Smt. Y. RATHNAMMA and my brother Mr. Y. RAJESH KUMAR REDDY for their heartful encouragement, care, affection and help in bringing this thesis to the present form.

I thank the authorities of Sri Padmavathi Mahila Visvavidyalayam, Tirupati and Yogi Vemana University, Kadapa for providing the necessary facilities to carry out this work.

I am so thankful to everyone who believed in me and encouraged me throughout my journey to where I am today. Any exclusion in this brief acknowledgement does not imply ingratitude.
