ACKNOWLEDGEMENTS

I wish to express my deep sense of gratitude to Professor M. Saleemuddin, my supervisor and coordinator, Int. Biotechnology Unit, Aligarh Muslim University for his invaluable guidance, moral support, trust and inspiration throughout the course of this study. I thank him for giving me the privilege and liberty to encroach on his valuable time whenever needed. I have no words to thank him all his favours very understanding nature, highly useful discussions and each and every help.

I am immensely grateful to Professor Renate Ulbrich-Hofmann, Dept. of Biochemistry/Biotechnology, Martin Luther University Halle-Wittenberg, Halle, Germany for inviting me to her laboratory as a DAAD fellow and providing limitless research facilities and many valuable suggestions which enabled me to give a meaningful conclusion to my research work. I am also highly thankful to her for all the help in social matters and for her hospitality.

I am grateful to Dr Saad Tayyab for his keen interest, help and encouragement during the course of work. I have no words to thank Dr M. Owais for all his experimental help, useful suggestions, time and encouragement during the course of this study. I also thank Dr Rizwan Hasan Khan and Dr Asadullah Khan for the help I received from them.

I extend my thanks to all my seniors, Salman bhai, Yogesh bhai, Mushahid bhai, Mateen bhai, Atia apa, and Hemlata apa for all their support, guidance and encouragement.

I am highly thankful to my colleague Masood Alam Khan for all his help, ideas, useful suggestions, encouragement and for him applies “A friend in need is a friend in deed”. I have no words to thank him for his sympathy, concern and help rendered not only to me but all the colleagues. I am also thankful to my colleague and friend Huma Rashid for her help and pleasant companionship all through.

I have no words to thank Faisal for his computer facility, helpful nature, and the respect rendered to me. Thanks are also due to my other very nice junior colleagues Soghra, Aabgena, Rukhsana, Arif, Sharad, Tehseen, Nida, Rubab, Iram, Basir Jafri, Tashween for creating a friendly working atmosphere and for their cooperation.
I feel short of words to thank Frau Mansfeld, Frau Schöps, Arnold, Ines, Gabriela, Jens, Peter, Yvonne, Alexander, Susi, Knut, Hagen and all my colleagues and friends at Dept. of Biotechnology, Martin-Luther University, for extending their expertise help and hospitality during my stay at Halle. I am thankful to Ajmal for all his help and cooperation during my stay at Halle.

University Grants Commission (UGC), New Delhi and German Academic Exchange Service (DAAD), Bonn, Germany are gratefully acknowledged for providing financial assistance. I wish to also thank all non-teaching members at Int. Biotechnology Unit, Aligarh for all their help.

Last but not least my gratitude to my parents, Atiya bagi, Seema, Shadab, Huma and Umar for their patience and stimulating interest during my research endeavor.
