Acknowledgements

My sincere thanks are due to:

Dr. P.M. Reddy, who not only introduced me to the fascinating field of biology of blue-green algae, but with his able guidance, apt criticism, reassuring smile and generosity remained a source of inspiration and helped generate a sense of confidence in me to carry out this investigation;

Prof. R.S. Tripathi, Head, Department of Botany, NEHU; Prof. P.S. Ramakrishnan, School of Environmental Sciences, JNU, New Delhi; Prof. R.R. Mishra, Prof. R. Lalthantluanga, Drs. Y.S. Chauhan, B.K. Ratha, P. Tandon, J.P. Gaur and G.D. Sharma, School of Life Sciences, NEHU, for providing research/instrumentation facilities;

Drs. C. Kumar and R.N. Saran, School of Life Sciences, NEHU, for their constructive comments and stimulating discussions;

Dr. J.R.B. Alfred, Deputy Director, Zoological Survey of India, Shillong for his generous help;

All my friends in different laboratories of the school and those who are away, for their help in one or the other way;

My friends Lucy, Jharna, Suprava, Radhashyam and Rakesh for their understanding and help rendered to me during the course of my work;
All my family folks, specially to Birla, Ibomcha, Boyal for their concern, encouragement and help;

Mr. Bijay Das and Mr. Sallil Choudhury, for their help in photography and graphics;

Mr. N.K. Paul Choudhury and Mr. Godfrey for taking keen interest in typing the thesis;

And C.S.I.R. for financial support.
