ACKNOWLEDGEMENT

I intend to express my deep sense of respect and gratitude to my affectionate supervisor, Prof. K. Venkateswarlu, FNAAS, FAMI, Department of Microbiology, Sri Krishnadevaraya University, Anantapur for introducing me to the field of Computational Biology. Without my guide’s relentless, inspiring guidance and constant encouragement, my dissertation work would have been incomplete. It is my privilege to thank my guide for his guidance at each and every step of my research work.

I am thankful to the faculty of the Department of Microbiology, Prof. B. Rajasekhar Reddy, Head of the Department, Prof. P.B.B.N. Charyulu, Prof. V. Rangaswamy, Prof. B. Venkatappa, and Prof. R. Ramanjaneyulu, for their valuable suggestions.

My sincere thanks to Dr. D. Muralidhar Rao, Dept. of Biotechnology, Sri Krishnadevaraya University, for his suggestions and encouragement in completing my research work.

My special thanks to Dr. A. Uma Maheswari, and D. Pradhan, Department of Bioinformatics, Sri Venkateswara Institute of Medical Sciences, Tirupati for their help.

I am thankful to my friend P. Siva Jyothi, my senior P. Srilatha, and all my colleague research scholars for their help and cooperation in carrying out my research work in the laboratory.

Finally, I would like to convey my profound sense of adore to my beloved parents Sri K. Nagaraj, P. Nalini, my brothers K. Praveen, K. Prashanth, and other well wishers for their immense help and cheerful encouragement during this study.

I am also very thankful to S.K. University for providing facilities to complete my research programme. Last but not the least, I thank all those authors of whom a reference is made in this dissertation.

K. Monika
