LIST OF FIGURES

1.1 Various polycyclic compounds with structural rigidity
1.2 High energy PCUD systems
1.3 Polycyclic caged compounds containing crown ether moieties
1.4 Polycyclic caged molecules as building blocks in natural products
1.5 Caged polycyclic compounds with useful biological activity
2.1 Biologically active triquinane derivatives
2.2 Skeletal structure of PCUD
2.3 ORTEP diagram of compound 46
