LIST OF TABLES

Table No.

3.1 Deposit Acceptance Limit by NBFCs

3.2 Aggregate Deposits of NBFCs from 1971 to 1997

3.3 Percentage of NPAs of NBFC-AFC-D both Gross and Net with respect to Total Outstanding

3.4 Financial Performance of NBFC-D (Amount in Rs. Crore)

4.1 Percentage Distribution of Borrowers by Selected Characteristics and Vehicle Finance

4.2 Percentage Distribution of Borrowers by Selected Characteristics and District

4.3 Percentage Distribution of Borrowers, Intermediaries and NBFCs who are Following Criteria for Credit Appraisal and Test of Significance

4.4 Percentage Distribution of Borrowers, Intermediaries and NBFCs who are Submitting Original Document for Credit Appraisal with Test of Significance

4.5 Test of Significance of Advance Availed by Borrowers with Various Categories of Vehicle

4.6 Test of Significance of Advance Percentage of Funding to Borrowers of New Vehicles with Arrears Position

4.7 Percentage Distribution of the Borrowers by Age and Vehicle Finance

4.8 Test of Significance of Awareness of Interest Rate of Borrower with Arrears

4.9 Percentage Distribution of Borrowers, Intermediaries and NBFCs

4.10 Test of Significance of Verifying Past Track Records with Arrears of Borrowers

4.11 Test of Significance of Verifying Details of Past Bank Operations with Arrears of Borrowers

4.12 Test of Significance of Verifying Social Status with Arrears of Borrowers

4.13 Multiple Regression Analysis of Credit Appraisal with Arrears

4.14 Test of Significance of Borrowers, Intermediaries and NBFCs who Exercise the Selected Steps while Documentation

4.15 Test of Significance of NBFC Opinion on Identifying the Borrowers and its Impact on Arrears, NPA and Write Offs

4.16 Test of Significance of Borrower Opinion with Arrears on Identifying Borrower and Guarantor at the Time of Documentation

4.17 Test of Significance of Borrowers Opinion with Arrears on Explaining Interest and EMI Calculations while Documenting

4.18 Test of Significance on Submission of Collateral Security by Borrowers to their Arrears

(i)
4.19 Percentage Distribution and Unweighted Average of Borrower, Intermediary and NBFC regarding Issue of PDCs
4.20 Percentage Distribution and Unweighted Average of Borrower, Intermediary and NBFC regarding Place of Initial Payment
4.21 Test of Significance with Arrears of Borrowers who Remitted Initial Payment at Various Places
4.22 Percentage Distribution and Unweighted Average of Borrower, Intermediary and NBFC regarding when Lien on Used Vehicles Created
4.23 Percentage Distribution and Unweighted Average of Borrower, Intermediary and NBFC regarding Repayment Mode
4.24 Multiple Regression Analysis of Documentation with Arrears
4.25 Test of Significance of Self Assessment of Paying Capacity of various Category of Vehicle Borrowers Table 4.26 Test of Significance of Self Assessment on Paying Capacity by Borrower, Intermediary and NBFC
4.27 Test of Significance of Borrower Habits of Being Calculative with Arrears
4.28 Test of Significance of Borrowers on Issue of Blank Cheques with Various Categories of Vehicle
4.29 Test of Significance of Noting the Contents by Borrower, Intermediary and NBFC with Various Categories of Vehicle
4.30 Test of Significance of Noting Down the Contents of PDC Issued with Arrears
4.31 Test of Significance of First Instalment Payment Delay with Various Categories of Vehicle Borrowers
4.32 Test of Significance of Failing to Pay the First Instalment in Time with Arrears
4.33 Mean values of prompt/within the month/within the period payments according to NBFC
4.34 Correlation between Prompt, Within Period and Month Payments
4.35 Mean Values of Period within which the Borrowers Close the Account according to NBFC
4.36 Ranks given by NBFC Officials on the Reasons for Foreclosing of Accounts
4.37 Mean value of opinion of NBFC officials on closing the loan
4.38 Mean Value of Satisfaction Level of Customers according to Borrowers
4.39 Test of Significance of Repeat Business by NBFC and Borrowers
4.40 Ranking given by NBFC Officials on the Reaction of Guarantors
4.41 Percentage Distribution of Market Knowledge of Borrowers on Repossessing, Surrender and Criminal Activity
4.42 Percentage Distribution of Criminal Activities on Repossession according to NBFC

(ii)
4.43 Mean Values of General Repayment Habits of Borrower according to NBFC
4.44 Multiple Regression Analysis of Borrower Habits with Arrears
4.45 Percentage Distribution and Unweighted Average of Borrower and NBFC regarding Information prior to Cheque Presentation
4.46 Test Significance of Borrowers, Intermediaries and NBFCs regarding Intimation of Repayment Schedule to Borrowers
4.47 Comparison on Repossessing and on its Modes (own staff/outourcing)
4.48 Percentage Distribution of Support Received from Court and Police on Repossessing Vehicle
4.49 Percentage distribution of criminal activities on repossession according to NBFC
4.50 Average Price Received on Various Mode of Disposal of Vehicle according to NBFC
4.51 Problems in Repossession according to NBFC
4.52 Mean of Percentage of Lacunas in Implementation of Recovery Policy according to NBFC
4.53 Multiple Regression Analysis of Collection Policy with Arrears
4.54 Multiple Regression Analysis on Various Elements on Collection Policy with Arrears of NBFC
4.55 Multiple Regression Analysis on Various Elements on Collection Policy with NPA of NBFC
4.56 Multiple Regression Analysis on Various Elements on Collection Policy with Write Offs of NBFC
4.57 Test of Significance of Default of Borrowers by Category, Type and Utility of vehicle
4.58 Percentage Distribution of Knowledge of Borrowers on Action taken by their Known Men on Repossession of their Vehicle
4.59 Reaction of Borrower on Repossession
4.60 Opinion of NBFC on Action on Cheque Return by Borrower
4.61 Action on Cheque Return by NBFC according to Borrowers
4.62 Mean Values of Advance, Arrears and NPA Position, etc. per Branch according to NBFC
4.63 Rank of Recovery Position of Various Category of Vehicle at NBFCs
4.64 Test of Significance of Category, Type, Utility of Vehicle and its Combinations at NBFC's with Arrears Position based on Ranking by NBFC Respondents
4.65 Multiple Regression Analysis of Independent Variables to Arrears (First Step)
4.66 Multiple Regression Analysis of Independent Variables to Arrears (Last Step)

(iii)
4.67 Multiple Regression Analysis of Independent Variables to Arrears of Utility (Private/Commercial) Vehicle (First Step)

4.68 Final regression model of private vehicles

4.69 Final regression model of commercial vehicles

4.70 Multiple Regression Analysis of Independent Variables to Arrears of Type (New/Used) Vehicle (First Step)

4.71 Final regression model of new vehicles

4.72 Final Regression Model of Used Vehicles

4.73 Multiple Regression Analysis of Independent Variables of All Categories of Vehicle to Arrears (First Step)

4.74 Final Regression Model of Small Cars

4.75 Final Regression Model of Premium Cars

4.76 Final Regression Model of Two Wheelers

4.77 Final Regression Model of Three Wheeler

4.78 Final Regression Model of Commercial Cars

4.79 Final Regression Model of LCV

4.80 Final Regression Model of HCV

5.1 Test of Significance between Opinion of Borrowers, Intermediaries and Officials of NBFC on Borrower Attraction to NBFCs

5.2 Ranking of Reasons for Attraction to NBFC

5.3 Test of Significance of Attraction of Borrowers to NBFC

5.4 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Speedy Processing with Selected Characteristics

5.5 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Customer Service with Selected Characteristics

5.6 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Personal Relations with Selected Characteristics

5.7 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Experts in Vehicle Finance with Selected Characteristics

5.8 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Flexibility with Selected Characteristics

5.9 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Better Marketing with Selected Characteristics

5.10 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Dealer Routes with Selected Characteristics

(iv)
5.11 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Banking Procedure with Selected Characteristics

5.12 Test of Significance between Opinion of Borrowers, Intermediaries and Officials of NBFC on their Suggestion for Better Management

5.13 Ranking of Suggestions for Improvement of NBFC Receivables and Business given by Borrowers

5.14 Mean Score of Funding Related Suggestions of Borrowers to NBFC

5.15 Mean Score of Service Related Suggestions of Borrowers to NBFC

5.16 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Reduced Percentage of Funding with Selected Characteristics

5.17 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Reduced EMI with Selected Characteristics

5.18 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Avoid Mediators with Selected Characteristics

5.19 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Proper Follow up with Selected Characteristics

5.20 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Better Relationship with Client with Selected Characteristics

5.21 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Prompt Payment Rebate with Selected Characteristics

5.22 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Structured Payment with Selected Characteristics

5.23 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Holidays on Eventualities with Selected Characteristics

5.24 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Supplementary Loan to Overcome Problems with Selected Characteristics

5.25 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Rescheduling of EMI with Selected Characteristics

5.26 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Permitting the Sale by Retaining the Loan (assignment) with Selected Characteristics

5.27 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Avoidance of Loading Extra Interest with Selected Characteristics

5.28 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Interest Calculation (Diminishing Balance Mode) with Selected Characteristics

5.29 Multiple Regression Analysis by Backward Selection Method of Borrower Opinion on Limiting the Installments to 10 per year with Selected Characteristics

5.30 Coefficient of Multiple Regression by Backward Selection Method of Borrower Opinion on Reducing of Early Closing Load with Selected Characteristics

(v)
