ACKNOWLEDGEMENT

A cherished dream of mine to pursue a Ph.D. work of societal significance has culminated with the writing of this thesis. As such, I feel obliged to acknowledge some people who proved to be instrumental during my research period.

At the very outset, I would like to express my heartiest gratitude to my supervisor, Dr (Mrs) Jayasree Borah for sparing her precious time in mentoring my research work. Also, thanks are due to her for being so concerned, considerate and understanding.

I feel deeply obliged to the people from various walks of life for they being patiently responsive to my queries. My sincere thanks are due to the authorities and the staff members of the National Library, Kolkata, OKD, Guwahati, Census Office, Government of India and other government agencies and officials for the priceless literatures and database being made available to me. I am also greatly indebted to various other non-governmental agencies for their immense cooperation.

My reverence and gratitude goes to the academic fraternity of the Department of Geography, Cotton College, Guwahati and the Department of Geography, Gauhati University for their invaluable and timely suggestions which helped me to improve my work continuously.

I owe a lot to our family and so do I highly acknowledge our family for being a constant source of inspiration, encouragement and for standing by me through thick and thin which always boosted my morale.

Last but not the least with folded hands I thank the Almighty for bestowing me with courage, vigour and zeal to overcome all the adverse circumstances and to forge ahead.

(Rekha Choudhury)
