LIST OF TABLES

Table No. Table
1. Particulars of the explosions used ... 11
2. List of Summary values for ( \( \rho-\Delta \) ) profiles
   (a) Eastern Kazakh ... 20
   (b) Novaya Zemlya ... 22
   (c) Nevada ... 24
3. Reduced Epicentral distance \( \Delta^\gamma \) for first stripping for the ( \( \rho-\Delta \) ) profile of Eastern Kazakh ... 39
4. Velocity depth distribution in the mantle below 700 km for sources at different sites ... 42
5. Regression coefficients of a few ( \( \rho-\Delta \) ) line segments ... 49
6. Low and high velocity anomaly regions for different profiles ... 54
7. Q values on earth obtained by other investigators using \( P \)-waves ... 60
8. Differential attenuation values for stations ... 82
9. Q values for different layers ... 87
