ACKNOWLEDGEMENT

This is to acknowledge my deep sense of gratitude to Prof. (Dr.) H.P. Das, Rector, Gauhati University for his valuable guidance and inspiration during the period of research in the Gauhati University. He has shown an unusually sympathetic consideration and prompt insight into the veracity of the various research aspects of the work, which have helped me in the analysis of these problems and finding solution thereto, and ultimately in finalising my thesis with his blessings.

The author has many debts to acknowledge. However, the most important debt is owed to Dr. V.B. Singh for reading the thesis and for his patient criticisms, suggestions and encouragement.
Further the author is indebted to Dr. P. Raikumar Singh of D.M. College of Science for providing technical terms of Oak Tasar.

Again the author has debt to Shri Ksh. Chetan Singh, Shri W. Prafullo Singh, Km. Ch. Devala Devi, Smt. Ph. Birohini Devi and Shri S. Naba Singh of G.P. Women's College for their cooperation.

GAUHATI
Dated 4th May, 1931.

Research Scholar.

Gyaneshwar Shalmo.
