ACKNOWLEDGEMENTS

Various individuals have very obligingly extended their help to me during my years of research and I would here like to acknowledge them.

I am deeply indebted to my guide and teacher, Dr. Sobinda Prasad Sarma, Professor of English, Gauhati University, who has supervised my work all throughout. The many discussions that I had with him regarding different aspects of my study have been really invigorating and extremely fruitful. It has been possible to complete this work only due to his able guidance and valuable suggestions.

I would also like to extend my thanks to the staff of Gauhati University Library, British Council Library, Kolkata as well as the National Library, Kolkata for all the help they rendered to me.
To Mr. Bhaskar Biswas – teacher, Computer Science, Don Bosco High School, Guwahati – I would like to express my sincere gratitude. In spite of his very busy schedule, he readily extended all help to me in typing out my thesis.

I would also like to take this opportunity to thank Dr. Anjali Sarma not only for her kind hospitality whenever I visited their house but also for her many words of encouragement to me.

My parents and my sister and brother have been constant sources of inspiration to me. I here, extend my sincere thanks and gratitude to them.

My work will be incomplete if I fail to mention my husband, Dr. Kanak Chandra Sarmah, Professor, Regional Dental College, Guwahati. His unstinted co-operation at every step in the preparation of this work as well as his constant encouragement gave me the impetus to undertake as well as complete my work. My daughter Darshana, also very willingly put up with my busy hours
and did her best to help me in any way she could. To both of them, I
would like to express my deep gratitude.

Lastly, I would like to offer my thanks to my colleagues,
relatives and friends for always evincing a keen interest in my work.
