NOTE ON METHODOLOGY

Underling:

The main Heading and sub-heading of chapter are given in block letters and underlined.

All book names in the main text are underlined. The initial letters of such words as Rāmāyaṇa, Mahābhārata, Purāṇa, Bhāgavata, Kathāsaritsāgara etc. are given in capital.

The name of authors and books in the quotations occurring in foot-notes are written without the initial letter in capital. The names of books in such quotations are also not underlined. Only the names of books from which the reference is made is underlined.

Typing:

The foot-notes are typed in double space like the text itself in order to make it convenient for putting diacritical marks as the quotations are mostly in Sanskrit and written in Roman script.
