ACKNOWLEDGEMENT

At the outset I offer my gratitude to Late Dr. P. Goswami, Ph.D. who was a real scientist and proposed present subject and was ready to supervise my work. I offer my heartiest thanks and gratitude to Dr. H. L. Duara, Vice Chancellor, Gauhati University for permitting me to carry out this study under Gauhati University leading to Ph.D. degree of the university in the department of Oto-rhino laryngology of Gauhati Medical College and Hospital, Guwahati.

I am also happy to express my gratitude to Dr. A.K. Barooah, Principal cum Chief Superintendent of Gauhati Medical College and Hospital, and Dean, Faculty of Medicine, Gauhati University for allowing me to do the study at Gauhati Medical College and Hospital, Guwahati. I am also thankful to Dr. K.P. Saikia, MBBS, MS, Prof and Head of the department of ENT, Gauhati Medical College and Hospital, Guwahati, for allowing me to do the study in the department of ENT, Gauhati Medical College and Hospital, Guwahati. I am also grateful to the principals and Superintendents of Assam Medical College and Hospital, Dibrugarh; Silchar Medical College and Hospital, Silchar; and Director, Dr. B. Barua Cancer Institute, Guwahati.
for their kind permission allowing me to use the hospital records.

Now, I am in privilege to take the opportunity to express my deep sense of gratitude and indebtedness to my respected teacher and guide, Dr. N.N. Barman MBBS, MD, Prof and Head of the department of medicine, Gauhati Medical College and Hospital, Guwahati for his valuable advice and constant supervision while preparing this piece of work. It is his constant encouragement and precise help which has brought this little work to light.

I am extremely grateful to Dr. K. Goswami, M.Sc, Ph.D., Director, and Dr. S.K. Dutta, M.Sc, Ph.D., Deputy Director, of Forensic Science Laboratory, Assam for allowing me to do the bio-chemical analysis for the study in the Forensic Science Laboratory, Assam.

Now, I take this opportunity to acknowledge my profound debt of gratitude to Dr. D.K. Barua, MBBS,MS; Dr. Mrs. K. Barua, MBBS,MS.DLO; Dr. A.C. Sharma, MBBS,MS; and Dr. S.C. Goswami, MBBS,MS; Associate professors of the department of ENT, Gauhati Medical College and Hospital, Guwahati; Mr. Dhrubajyoti Hazarika, M.Sc, Department of Chemistry (Narcotics), Forensic Science Laboratory; Dr. J. Kaloky ,M.Sc, Ph.D., Assistant Professor,
Department of life sciences, Institute of advanced study in Science and Technology (IASST), Guwahati for their valuable advice and help in different stages of this work.

My sincere thanks are due to Dr. (Mrs). Swagata Khanna, MBBS, MS, DLO; and Dr. D. Choudhury, MBBS, MS, Assistant Professor and Dr. B.K. Das MBBS, MS, DLO, Registrar, Department of ENT, Guwahati Medical College and Hospital, Guwahati for their generous help whenever sought for.

I shall remain ever grateful to Dr. N.N. Dutta MBBS, MS, FICS, Chairman cum Managing Director and senior ENT Specialist, Down Town Hospital, Guwahati for his constant constructive criticism of the present work.

To, Dr. Mrs. Pranita Deka, MBBS, DA, I have debt of gratitude for her all round help and assistance during the period of the study.

(Bhaben Choudhury)
