It gives me immense pleasure to express my deep sense of gratitude to Dr Nabin chandra Barua, scientist, organic chemistry division, Regional Research Laboratory, Jorhat, Assam, India for his encourageous, noble and inexhaustible guidance and painstaking but inspiring criticism throughout the course of this study. I am also grateful to Dr Pranab Jyoti Das, Reader, department of chemistry, Gauhati University, Guwahati-14, Assam, India, for his invaluable advice and keen interest in this work.

I also wish to record a particular debate of gratitude to Director, RRL, Jorhat for providing necessary facilities to carried out this piece of work. I am obliged to Dr Kamaleswar Goswami, Director, Forensic Science Laboratory, Kahilipara, Guwahati-19 for providing necessary permission to carry out the later part of the thesis work.

I extend my thanks to Dr Abu Taleb Khan former Scientist fellow, RRL, Jorhat and presently the Assistant Professor, department of chemistry, Indian Institute of Technology, Guwahati-1, not only for the many helpful discussions that I had with him but for the inspiring criticism throughout the course of this study and for providing $^{13}$C and $250$ MHz $^1$HNMR spectra, and proton decoupling spectra of some of the products mentioned in this thesis.

I am greatly indebted to Dr M J Bordoloi, scientist, NPC group for recording $300$ MHz $^1$HNMR spectra of some of the products mentioned in this thesis. I would like to thankfully record the suggestions and help which I have received at different stages of this work from the senior scientist of our division particularly by Dr P K Choudhary, Dr J C Sarma, Dr Parijat Sarma, Dr Dilip Konower, Dr D K Dutta. I am highly indebted to my friends Dr Anil Kr Saikia, Dr Maitreyee Sarma Bezbaruah, Ghanashyam, Ruli, Naba, Dipok Jyoti, Apurba, Bhabajit and Dhiraj for their assistance and inspiration. I also thank entire staff of natural product chemistry group of RRL Jorhat for their friendly attitude and help at different stages of this work.

The invaluable help extended by the staff of the analytical chemistry division, RRL, Jorhat in the instrumental analysis is greatlyftfully acknowledged. My heartfelt thanks are due to the colleagues of glass blowing section, accounts section, library and documentation, store and purchase section of RRL Jorhat.
I owe very great deal to Dr T C Sarma, Dy. Director, chemistry division and Dr S K Datta, Dy. Director, chemistry division (D & N), of Forensic Science Laboratory, Kabilipara, Guwahati-19, Assam, for their continued interest, help and valuable suggestions during the later part of my work. I must thank my colleagues Mr A. Buragohain, Mr D J Hazarika and Mr K C Sarma for offering me their valuable suggestions and assistance.

I am very much obliged to my father Mr Nageswar Kalita, my mother Mrs Aykan Kalita and my elder brother Mr Narayan Kalita and other family members for their affectionate encouragement and moral support throughout the work.

Date: 24.6.98
