Acknowledgement

It is a great opportunity to acknowledge my supervisor, Prof. N. Nimai Singh for his enthusiastic guidance without which the present work would not have been completed. I believe that acknowledgement should have been supported by more serious research publications than I have now.

I acknowledge the University Grant Commission (NE Region) for awarding a fellowship under Faculty Improvement Programme (FIP) and the D. R. College authority for allowing me to avail of the fellowship. Particularly, I would like to thank Dr. N. Buragohain, Dr. J. D. Pathak, Dr. T. C. Bhuyan, Mr. Dinesh Gogoi and Mr. Moni Kalita, all from D.R.College, for showing their interest in my research work.

I shall ever be grateful to Prof. H. L. Duorah, Prof. D. K. Choudhury, Prof M. Devi, Prof. S. A. S Ahmed, Prof. H. L. Das, Prof. B. K. Sarma, Dr. K. Duorah, Prof. K. Baruah, Dr. M. P. Bora for their excellent teaching and encouragements. The facilities provided by Prof. A. Rahman, the then Head of the Deptt. of Physics, G.U. is gratefully acknowledged. I am thankful to Prof. Utpal Sarkar of Physical Research Laboratoy, Ahmedabad, for his valuable advice regarding our calculations. I had the opportunity to attend the “All India Refresher Course In Theoretical Physics”, held at Hyderabad University(2000), organised by Indian Academy of Sciences; and the “Main
School in Theoretical High Energy Physics (2004) held at IIT, Kanpur, organised by Science and Engineering Research Council (SERC), India. Both schools are very fruitful to my research work. I thank to the faculties and organisers of the schools.

During the course of my work, I also learnt many things related to computer, from Dr. Abhijit Borah of Fazl Ali College, Nagaland, M. Patgiri of Cotton College, Monisha Rajkhowa of Jorhat Science College, Atanu Dutta of Jorhat Engineering College, Mrinal Kr. Das of DRDO, M. N. Borah of D. R. College, H. Zeen Devi of G.U, Naba Sarma of Computer Center, G.U., Monoranjan Singh of USIC, G.U, Chandrajit of Zoo-Tinali, Guwahati and also from my brother Sushil, NIC, Kolkata. I thank all of them. I also sincerely thank all the research scholars, with whom I shared the ‘Theoretical Research Corner’, Deptt of Physics, G. U. for their inspiring discussions. Occasionally I had disturbed my friends Arup and Anupama by advertising our works and I thank both of them for their patience.

My wife Moushumi and our little daughter Rishita, rarely asked for my help; and their ‘not to disturb’ attitude is gratefully acknowledged. Finally I wish to acknowledge constant support from my parents and family members.
