ACKNOWLEDGEMENT

The authoress wishes to express her deepest sense of gratitude and indebtedness to Dr. P.J. Handique, Reader, Department of Biotechnology, Guwahati University, Guwahati, for his valuable guidance, help and encouragement throughout the course of the investigation and preparation of this manuscript.

The authoress gratefully acknowledges the financial assistance in the form of research fellowship provided by DBT, Govt. of India, to carry out the laboratory work. Special thanks go to Dr. Manju Sharma, Secretary, DBT, Govt. of India for her inspiration and valuable suggestion during her visit to the laboratory.

She remains grateful to Dr. A.K. Handique, Prof. and Head, Department of Biotechnology, Guwahati University and the other faculty members of the Department, for their academic help and guidance.

The authoress remains indebted to Dr. P.C. Deha, Prof. and Head, Deptt. of Biotechnology, Assam Agricultural University, Jorhat for allowing her to utilise the laboratory facilities to carry out a part of the research work. Thanks are due also to Ganesh and Avishek Sarma, M.Sc. student of the Department for their cooperation.

Special mention of gratitude has to be made for Dr. (Mrs) J.S. Handique, Senior Lecturer, Deptt. of Chemistry, Dibrugarh University for her help in Phytochemical work during the course of investigation.

The authoress owes thanks and appreciation to Smita Humur, Dr. J.S. Devi, Dr. S.K. Sinha, Anil, Engie, Sangeeta, Kantala and Smriti for their sincere help in all spheres during the course of investigation. Thanks are due also to Munin and Mrinal, Laboratory Assistants for their necessary help.

Sincere thanks are due to Dipan and Dipu, Info Comp for preparing the manuscript in its present form.

Last but not the least, the authoress expresses her heartfelt thanks to all her family members for their constant inspiration and moral support beyond the academic scene without which it would not have been possible to accomplish the work.

Rupak Bhuyan
The authoress
