ACKNOWLEDGEMENT

The author takes his sincere privilege to express his deep sense of gratitude and indebtedness to Dr. M.C. Kalita, Reader, Department of Biotechnology, Gauhati University, Assam for his sincere guidance, constructive suggestion and generous attitude at all stages of the work and preparation of the thesis.

His thanks are also due to Dr. S. Sarma, Former Head of the Department of Biotechnology, Gauhati University for his kind and valuable advice rendered during the course of the work.

The author remains ever grateful to Mr. C.K.Sarma and Dr. P.K Dutta, from the Regional Research Centre for N.E.H. Region, Indian Council Of Medical Research, Dibrugarh, for their help in identification and culturing of mosquito species in the laboratory.

He offers his sincere thanks to Mr. Ramtiama, Advocate, Aizwal, Mizoram; Dr. Nikholo, Principal Investigator, Chinese Traditional Medicine, Kohima, Nagaland; AVP of Arunachal Pradesh, Village Chiefs of Zakhama and Mokokchung, Nagaland; Zero of Arunachal Pradesh, Hlimen Samtlang and Tenhril of Mizoram, Dr. A.C. Dutta, traditional practitioner, Jorhat, and other local villagers of Dhemaji, Dibrugarh, Sibsagar and Goalpara of Assam for their kind cooperation during the initial survey work which unfolded the progress of the work.
It would have been virtually impossible to complete the work had it not been the kind and generous help rendered by Dr. D. Kalita, Forensic Science Laboratory, Guwahati and Dr. J. C. S. Kataky, Dr. N. C. Barua Scientist from the Department of Organic Chemistry, Dr. P. R. Bhattacharya, Department of Entomology, Regional Research Laboratory, Jorhat Prof. (Dr). S. K. Dutta, Prof (Dr). Adil Boruah Department of Entomology, Assam Agricultural University, Jorhat in almost every step of the work.

The author remains ever grateful to Dr. M. R. Heble, Scientific Adviser, Mr. Sukesh Kumar Singh, Scientific Research Center, Dr. G. T. Parekar, Head Department of Biotechnology, Kelkar Educational Trust, Mumbai, for their kind help in GC/MS analysis of the essential oil of the test plants and providing their library facilities. He is also grateful to Dr. A. K. Hazarika, Scientist, Quality Management Center, Regional Research Laboratory, Jorhat for the help rendered by him in the HPLC analysis of the samples. It is also the privilege of the author to offer his sincere gratitude to Dr. A. K. Talukdar, Department of Chemistry, Gauhati University for providing his GC facility for characterization of the potent oil fractions. The kind and generous help of Dr. D. K. Sarma, Professor from the Department of Zoology, Gauhati University, in the documentation of the photographs of mosquito stages.

He gratefully acknowledge the help received from his friend Amar, Sage Publication, New Delhi, Virender, Venkatach from Global
Enterprise Infotech Solution, Mumbai for the software statistical analysis and compilation of the work.

It is his pleasure to express his indebtedness to Mr. Babul Kalita from the Department of Biotechnology, Gauhati University, whose constant companion and help in multi dimensional works had accelerated the completion of the work.

It is his pleasure to acknowledge Alok Deka, Abhijit Talukdar, and other Research Scholars from the Department of Biotechnology, Gauhati University; Meherun Nesa, Bhabisuta, student from Gauhati University and Surajit Baruah, Research Scholar, Department of Zoology, Gauhati university, for their constant inspiration and manifold help rendered from time to time.

He sincerely acknowledges Global Enterprise Infotech Solution, Mumbai for giving him ample time for the completion of the thesis work.

Last but not the least the author expresses his deep reverence and gratitude to his parents, brother and other friends and well wishers who during the course of the work had constantly lended a helping hand and for their understanding patience without which this work would not have been completed.

Date: 23/12/2007
