ACKNOWLEDGEMENT

I express with great pleasure my deep sense of gratitude to Dr VM Sarma, Professor and former Head of the Botany Department, G U, for his most precious and valuable suggestions, constant guidance and supervision throughout the present investigation and also in preparation of this manuscript.

My grateful thanks are due to former Heads of the Department Dr BC Goswami, Dr SK Sarma, Dr CK Baruah and Dr KN Baruah and also the present Head of the Botany Department, Professor SD Baruah GU, for providing me laboratory and field facilities during the period of investigation. I owe a special word of appreciation to Professor SK Choudhury who always inspired me with his kind words.

I convey my heartfelt thanks to Dr BN Mazarika, Senior Scientist, Dr NK Mahan, Chief Scientist, Horticultural Research Station, Kahikuchi, AAU, for their suggestions and lot of help and also giving me the opportunity to collect the planting materials from the Horticultural farm for experimentation. I also express my sincere thanks to Professor SK Barthakur and Dr BK Jha, Reader in Botany for their words of encouragement.

Grateful thanks are also due to Sri Narayan Borgohain, Ex-principal, LTK College, Dr L Buragohain, Principal, LTK College for providing me with all necessary facilities without which the study would have remained incomplete.

My thanks are also due to Susmita ha, Bharati ha, Ranjan, Mallika, Prativa, Popari and other friends and well wishers of the University and all the members of Classic Corner. But not the least, my heartful thanks
are also due to my husband Sri Aswini Kumar Lutta, my father, sisters and brothers, in-laws for their patient forbearance and help during the course of my work. My respectful tribute to my beloved mother Late Bhadreswari Barkataki, who had always been a source of inspiration for my study and who would have been the happiest person to see this piece of work complete.

Barkataki.

Riju Barkataki
Department of Botany, Gauhati University
