ACKNOWLEDGEMENT

The work presented in the thesis, entitled "STUDIES ON CERTAIN ASPECTS OF SEED-BORNE FUNGI OF PADDY STORED UNDER AMBIENT CONDITIONS" was carried out in the laboratory of the Botany Department, Gauhati University during 1990-95.

The problem of the thesis was suggested by my teacher and guide Dr. K.N. Bora, M.Sc., D.Phil., Reader in Botany, Gauhati University. I express my deep sense of gratitude and honest reverence to him for his continued guidance, without which the work would have hardly been a reality.

I am grateful to Dr. C.L. Baissya, M.Sc., Ph.D., Professor and Ex-Head of the Botany Department, Dr. C.M. Sarma, M.Sc., Ph.D., Professor and Ex-Head of the Botany Department and Dr. S.Choudhary, M.Sc., Ph.D., Professor and Head of the Botany Department, Gauhati University for providing laboratory facilities.

I am also thankful to all teachers of Botany Department of Gauhati University for their inspiration and valued guidance.

I am thankful to all who had helped and assisted in carrying out the Research work, and to name a few, Dr. L.N. Dubey, Dr. B.N. Medhi, P.K. Mahanta, M.phil., B.G.Goswami, M.Phil. and the members of the teaching and non-teaching staff of Biswanath College, Chariali (Sonitpur) Assam.

Lastly, my sincere gratitude is due to Prof. D.N. Baissya retired and ex-head of Botany Department, Gauhati University, and also to Director, CMI Kiwi (London) and Director DRL (Solmora) Tezpur.

[ C. BHAGAWATI ]
