ACKNOWLEDGEMENTS

I take this opportunity to express my profound sense of gratitude to my guide Dr. Pratap Jyoti Handique, Reader, Department of Biotechnology, Gauhati University for giving me the privilege to work under him. I thank him for his guidance, support and invaluable criticism which led to a successful completion of this thesis.

I would like to acknowledge with honour the kind pursuance of the then Head of the Department of Biotechnology, Dr. Soneswar Sarma for his help and advice.

I recall with gratitude the help given to me during my period of work by Dr. A.K. Handique, Professor, Department of Biotechnology. I would like to thank the present Head, Dr. F.U. Ahmed, Department of Biotechnology for his help and suggestions.

I am greatly indebted to Dr. J.S. Sandhu, Director, R.R.E. Jorhat for granting me permission to work in his laboratory.

I am grateful to Dr. B.G. Unni, Scientist, R.R.E. Jorhat who had rendered valuable suggestions and co-operation.

I would also like to thank the officials of Eri Silkworm Seed Production Centre, Mirsa for providing me with eri seeds for my experiment. My thanks also to the officials of Regional Muga Research Station, Boko and Khanapara for their help in different stages of my work.

I am also thankful to the authorities of K.K. Handique Library, Gauhati University, R.R.E. Jorhat Library, Assam Agricultural University Library, Jorhat and M.S. Swaminathan Library, Chennai.

I am specially indebted to Martinet Computer Centre, Jalukbari for neatly composing this thesis within a very short time.

My special thanks to my friends Kantala, Paspa, Smita, Jhumur, Jitu, Alok, Abhijit, Saptarsi and Pradipda for their time to time help. My sincere thanks to Mini for her love and support.

My everlasting thanks to my parents whose invaluable support and belief has encouraged me in this endeavour.
