LIST OF TABLES

1.1 Distribution of soils in Anantapur District
1.2 Growth of population in Anantapur District
1.3 Distribution of land holdings in Anantapur District (1981)
3.1 Weekly drought intensity
3.2 Yearly drought intensity
3.3 Water balance calculation table for Anantapur
3.4 Water balance calculation table for Dharmavaram
3.5 Water balance calculation table for Hindupur
3.6 Water balance calculation table for Penukonda
3.7 Water balance calculation table for Madakasira
3.8 Water balance calculation table for Gooty
3.9 Water balance calculation table for Tadipatri
3.10 Water balance calculation table for Kadiri
3.11 Water balance calculation table for Rayadurg
3.12 Water balance calculation table for Uravakonda
3.13 Water balance calculation table for Kalyandurg
3.14 Water balance calculation table for Anantapur District
4.1 Changing spatial distribution of Forest landuse in Anantapur District
4.2 Changing spatial distribution of Non-agricultural land in Anantapur District
5.1a Changing pattern of groundnut cultivation in Anantapur District

5.1b Changing spatial distribution of groundnut cultivation (gross) in Anantapur District

5.2 Changing pattern of groundnut cultivation under irrigation in Anantapur District

5.3 Changing spatial distribution of irrigation to groundnut cultivation of Anantapur District

5.4 Changing spatial distribution of groundnut cultivation (Kharif) in Anantapur District

5.5 Changing spatial distribution of groundnut cultivation (Rabi) in Anantapur District

5.6 Average yield levels of groundnut in Anantapur District, Rayalaseema Region and Andhra Pradesh

6.1 Application of differential dose of fertilizer and groundnut crop yield response

6.2 Yield of groundnut and red gram as influenced by fertilizer levels

6.3 Application of Iron, Chlorosis and groundnut crop yield response

6.4 Effect of weed management on pod yield of groundnut and weed biomass

6.5 Comparative account of the mechanised, versus traditional cultivation

7.1 Initial and Conditional probabilities of Rainfall at Anantapur

7.2 Initial and Conditional probabilities of Rainfall at Dharmavaram

7.3 Initial and Conditional probabilities of Rainfall at Hindupur

7.4 Initial and Conditional probabilities of Rainfall at Penukonda
7.3 Initial and Conditional probabilities of Rainfall at Madakasira

7.6 Initial and Conditional probabilities of Rainfall at Gooty

7.7 Initial and Conditional probabilities of Rainfall at Tadipatri

7.8 Initial and Conditional probabilities of Rainfall at Kadiri

7.9 Initial and Conditional probabilities of Rainfall at Rayadurg

7.10 Initial and Conditional probabilities of Rainfall at Uravakonda

7.11 Initial and Conditional probabilities of Rainfall at Kalyandurg

7.12 Initial and Conditional probabilities of Rainfall at Anantapur District

8.1 Water requirement for groundnut crop in Anantapur District

8.2 Length of the growing season and total amount of rainfall before, during and after the season along with the growing season percentage to the annual rainfall

8.3 Probability of growing season length exceeding specified duration for variable on set of rains

8.4 Groundnut crop calender for Anantapur District

8.5 Groundnut crop calender for Anantapur District
