ACKNOWLEDGEMENTS

I gratefully acknowledge the contribution of my Supervisor Dr. Virendra Nath Srivastava, who encouraged and guided me in this endeavor.

I am very thankful to Dr. Suresh Deorani, the Vice Chancellor and Prof. Prafulla Kumar Dash, the Registrar cum Dean (IBS Dehradun), who provided me an opportunity to pursue Ph. D and complete the Research work. The processing of the thesis according to the guidelines of the University could not have been possible without the support of Dr. Abhay Kumar Tiwari, the Research Coordinator, who also helped me a lot in the Research Methodology of this study. The support of the Doctoral Advisory Committee members, Dr. Mary Ipe, Prof. Prafulla Kumar Dash and Dr. Manish Kumar Srivastava, who helped me in making the research proposal and formulating the thesis objectives deserve special mention.

I also thank all my maternal relatives who supported me in various ways throughout this study. I believe that my father, whom I lost at a very young age, must be feeling proud of me from heaven. Finally, I would like to take this opportunity to thank my mother who always stood by me in all times and did not make me feel the absence of my father.

Nothing in this world is possible without the blessings of the God. The whole credit goes to Lord Ganesha, Shree Renuka Devi (my family deity), Lord Krishna and Goddess Rukmini.

Niraj Kishore Chimote,
Research Scholar (RS-IBS-0102),
The ICFAI University,
Dehradun
