ACKNOWLEDGEMENTS

I feel very much short of words to express my profound sense of gratitude to Dr. C.L. Boissya, M.Sc., Ph.D. (London), F.N.A.Sc., Reader in Botany at the University of Gauhati for his able guidance, constant supervision, keen interest, continued encouragement and inspirations throughout this research without which the completion of the thesis would have been impossible.

I shall be failing in my duties if I do not acknowledge with thanks the friendly welcome and invaluable help rendered to me by the people of Assam during the course of my field work.

Grateful acknowledgement is also made to the authorities of the Central Council for Research in Ayurveda and Siddha, New Delhi, Officer-in-charge and all the staff members of the Regional Research Centre (Ay.) and Govt. Ayurvedic College, Gauhati for their kind permission to work for the Ph.D. degree and for providing necessary facilities for research. Thanks are also due to Mr. M. Lahkar and Mr. N. Mahanta for their help and encouragements.

Finally I would like to extend my deep appreciation to my mother Mrs. Prafulla Majumder, all other members of my family and Mrs. Sewalee Boissya, M.Sc. for immense inspirations in performing this work.

(Rajendra Majumder)

Date 23.9.1980.
