ACKNOWLEDGEMENT

It is a great privilege to express my deep sense of gratitude to Dr. (Mrs.) Rita Mahanta, Selection Grade Lecturer, Zoology Department, Cotton College, Guwahati for her pain staking guidance, enthusiastic supervision and inspiration through out the entire period of study.

My heartfelt gratitude goes to Dr. (Mrs.) A. Borkotoky, Prof. Department of Zoology, Gauhati University for her guidance, keen interest and helpful suggestion in this work.

I shall be ever obliged to Dr. R.K. Mahanta, Associate Professor, Department of Biochemistry, Guwahati Medical College whose invaluable suggestions and encouragement at critical hours were immense help during the course of the study.

It is my humble duty to remember my father late Bhabendra Nath Choudhury who inspired me a lot to initiate the study.

I am eternally indebted to my husband Shyamanta, daughter Loya and son Lawn whose love, understanding and active support only made it possible to complete this piece of work in time.

I must acknowledge considerable debt to my mother and elder sisters for their encouragement, and necessary cooperation throughout my work.

Last but not the least, I wish to express my sincere thanks to my family members, friends specially Mridul and Mridhusmita for their kind help and encouragement during the course of study.

Dated, Guwahati (Manalisha Choudhury)
