ACKNOWLEDGMENT

The work presented in this Thesis was performed under the valuable guidance of Dr K G Bhattacharyya, Professor & Head, Department of Chemistry, Gauhati University, and Dr S K Choudhury, Selection Grade Lecturer, Department of Chemistry, Cotton College. I would like to express my sincere gratitude for guidance and suggestions offered at every stage of the work.

I am also thankful to UGC, North Eastern Regional Office for financial assistance under the scheme of Minor Research Project, and SAIF, Central Drug Research Institute, Lucknow for their GC support.

Thanks are also due to the teachers of Chemistry Department, Gauhati University, Environmental Science Department, Gauhati University, Chemistry Department, Cotton College, Dr P K Sarma, Retired Professor, Chemistry Department, GU, Dr B K Baruah, Department of Zoology, Cotton College and Dr Ms M Sarma, Department of Botany, Cotton College for their kind inspiration and cooperation. Also, I like to thank Parashmani Das, Ms Moutusi Dutta and Ms Gitali Baruah, Research Scholars, GU for their help.

I must mention the role of my wife Kalpana, sons Bamapratim and Bedapratim, brother Pramesh, who supported me immensely all through the work.

PRAHASH CHANDRA SARMA
