ACKNOWLEDGEMENTS

I would like to express my deep gratitude to the various authors whose works, quoted at the appropriate places inside the present work, have inspired me to undertake the present line of research in understanding more logically the man-land relationship as a fundamental aspect in geographical studies, with special reference to the analysis of urban landscape of a region. I am thankful to the authorities of the United States Educational Foundation in India (USEFI) for awarding me a Fulbright Scholarship which enabled me to be initiated to the present line of geographical research in the Department of Geography of the Indiana University, Bloomington, U.S.A. where the able guidance of the teachers and the wonderful library facilities provided me with ample scope to do the preliminary spade-work for the present topic. I wish to express my sincere gratitude to the Indiana University for this.

This work was completed under the supervision of Dr. H.P. Das, Professor and Head of the Department of Geography of the Gauhati University. I am greatly indebted to him for his guidance, suggestions, help and advice. In fact, it was he who inspired me to work on the present region immediately after my return from the U.S.A.

I am grateful to a number of people for their co-operation and assistance in my field-work and collection of data. They are: Advocate J.P. Verma, Prof. V.K. Verma, Prof. (Mrs.) V.L. Singh, Prof. N. Bhattacharyya, Prof. H.N. Sharma, Prof. (Miss) Deepali Das, Miss Sabita Mitra, Miss Dharitri Deka and Mr. A.K. Verma. In this connection, I shall fail in my duty if I do not acknowledge the cordial
help extended by the officials of the various government and other organizations, such as: the Department of Economics and Statistics, Govt. of Assam; the Office of the Superintendent of Census Operations (Assam); the Office of the District Statistical Officer, Dibrugarh; the Office of the Chairman of the Dibrugarh Municipality; the Town and Country Planning Organization, Dibrugarh; the Subdivisional Planning Office, Dibrugarh; the Office of the Divisional Forest Officers, Dibrugarh and Digboi; the Department of Agriculture, Govt. of Assam, Shillong; the Office of the Deputy Chief Engineer, Flood Control and Irrigation Wing, P.W.D., Govt. of Assam, Shillong; the Oil India Limited, Dullajan and Digboi and the Tea Estates of Jamira, Bokel, Rajabari, Sessa and many others.

My sincere thanks are due to Mr. U. Roychoudhury and Mr. Subba Rao for helping me in drawing the maps and diagrams and to Mr. M. Lahkar for the photographic work connected with them. My thanks are also due to Prof. D.C. Goswami, Prof. M. Das, Prof. P.S. Reddi, Mr. L.K. Das and Mr. E. Pani who helped me in arranging the materials at the final stage of the work. Finally, I express my thanks to Mr. K. Kalita who has taken care of the typing work and to my colleagues Dr. M. Barthakur, Dr. M. Taher, Prof. M.C. Bhuyan and Prof. P. Deka who have extended their help, whenever I needed, for completion of this work.

Department of Geography,
Gauhati University,
Gauhati-14, Assam : India.
December 20, 1971.
