ACKNOWLEDGMENTS

The material of the work in its present form reported here is a fruitful consequence of dedicated assistance, unabating encouragement and the instilling motivation provided by Prof. Jishnu Dey, Hooghly Mohsin College and Prof. B. C. Samanta, Dept. of Physics, B.U. It is a great pleasure for me to be a part and parcel of the hierarchy formed by Prof. Dey and Prof. Samanta for the past several years. During that period not only they were instrumental in guiding me safely through the pitfalls of research by their sheer knowledge of the subject but did everything which I can expect from my next of kin. Taking the baptism in this thriving area of physics under these two great and sagacious educators and profound thinkers I do feel myself fortunate enough and express my deep sense of gratitude, indebtedness and regards from the bottom of my heart. In this context, I would also like to mention in particular the explicit and cordial help of Dr. (Mrs.) Mira Dey. Her sheer splendour of enterprising spirit helped me in a great deal in achieving the feat.

I take the privilege in acknowledging the whole hearted support tendered by Prof. P.K. Sengupta, Head, Dept. of Physics, B.U. whose inspiring attitude alongwith lively and exchanging discussions always paved the way for a smooth sailing to my destiny. I convey my regards to the fullest to him and also to my other teachers of the department.

It is also a great pleasure to be among the research workers of the Dept. of Physics for the entire period of my work. Their inquisitiveness to
the problem on which I worked, always inspired me to put more labour resulting this fruitful outcome. I thank them all. In particular my special thanks are due to Dr. M.M. Majumdar, Dr. A. De, Dr. S. Das, Mr. S.P. Konar and Mr. K.P. Kanta. In this process, the name which comes to my mind time and again is none other than my departmental colleague Mr. R. Mallik, DIO, NIC, North 24 Parganas. I am indebted to him. I am grateful to Dr. (Mrs.) Jayashri Chaudhuri, Additional Director, NIC, Govt. of India, W.Bengal State Unit for her encouragement. I would also like to acknowledge Shri S. Mitra, IAS, D.M., North 24 Parganas for his encouragement.

I am thankful to Mr. B. Sarkar and other officials of the Computer Centre, B.U. for their indispensible help in my hours of need. I would also like to thank Mr. Debnarayan Aditya of Physics Department for his help in typing the research materials during the initial stages of my work.

I do also gratefully acknowledge the financial support provided by Council of Scientific and Industrial Research, India in the form of a fellowship for four years. My indebtedness also belong to Burdwan University for providing me with the necessary facilities at different stages of my work.

I am deeply indebted to my loving mother for her forbearance and encouragement and to my family members for their support.

(Gopeswar Mukhopadhyay)
