ACKNOWLEDGEMENT

The author is grateful to Dr. S.K. Moitra, M.Sc., Ph.D. (Lucknow), Reader in Zoology, Burdwan University, for guidance and constant help throughout the course of the present investigations.

Grateful acknowledgements are also due to Prof. D.K. Choudhuri, M.Sc. (Cal), Ph.D. (London), D.I.C. (London), D.Sc. (Cal), F.E.S.I., Head of the Department of Zoology, Burdwan University and to the authorities of the Burdwan University for providing necessary research facilities.

The author has drawn heavily on the suggestions and criticisms of several teachers during the course of the work. In particular, thanks are due to Prof. J.S. Datta Munshi, M.Sc. (Patna), Ph.D. (Banaras), Head of the Department of Zoology, Bhagalpur University, for help rendered in photomicrography.
