List of Illustrations

1. Number of working factories, average capacity (tonnes) per day and sugar produced ('000 tonnes) 1950-51 to 1955-56.
2. Consumption during First Five Year Plan 1951-52 to 1955-56.
3. Total income from cess (Rs) and total expenditure on cane (Rs. lakhs)- 1951-52 to 1955-56.
4. Total expenditure on cane development scheme- 1951-52 to 1955-56.
5. Statewise distribution of the installed capacity in 1959-60 and expected capacity in 1960-61.
6. Production of sugar 1955-56 to 1960-61.
7. Number of working factories, average capacity (tonnes) per day and sugar produced ('000 tonnes) 1961-62 to 1965-66.
8. Number of working factories, average capacity (tonnes) per day and total sugar produced ('000 tonnes) 1965-66 to 1971-72.
9. Area under sugar cane in India from 1932-33 to 1973-74.
10. Yield of cane per acre from 1932-33 to 1970-71.
11. Total sugar production from 1931-32 to 1973-74.
12. Production of sugar cane in India ('000 tonnes) from 1932-33 to 1970-71.
13. Average capacity (tonnes per day) and average duration (days) of sugar cane in different years in India from 1932-33 to 1973-74.
14. Average recovery of sugar percent in India from 1931-32 to 1973-74.

(ii)

15. Average yield of cane per acre in different states of India from 1959-60 to 1967-68.
16. Recovery percent cane in different countries of the world from 1961-62 to 1969-70.
17. India - Communication system and location of sugar factories.
18. Trend in production in India (Moving average), from 1958-59 to 1973-74.
19. Trend in production of cane in India (Time Series Analysis by Least Square Method) in different states of India ( West Bengal, Bihar, West Uttar Pradesh, East Uttar Pradesh, Maharashtra, and rest of India ) from 1961-62 to 1971-72.
20. Production, consumption and per-capita consumption of sugar in different states of India 1959-60.
21. Production, consumption and per-capita consumption of sugar in different countries of the world, 1958-59.
22. Percentage of workers in different categories in different states of India.
23. Percentage composition of employee in different states of India on seasonal and non-seasonal basis, 1965-66.
24. Percentage of workers employed in large industrial establishment and sugar industry 1925-26.
25. Percentage of workers employed in large industrial establishment and sugar industry 1935-36.

(iii)

26. Percentage of workers employed in large industrial establishment and sugar industry 1945-46.
27. Percentage of workers employed in large industrial establishment and sugar industry 1955-56.
28. Percentage of workers employed in large industrial establishment and sugar industry 1965-66.
29. India - Physiography and sugar growing areas.
30. India- Annual average rain fall, irrigated areas and stateswise sugar cane areas.
31. India- Soil and stateswise sugar cane areas.
