ACKNOWLEDGEMENT

I would like to express my deep sense of gratitude to Dr. S.K. Ghosh, Ph.D. (U.S.A.), C.Chem. (Lond.), F.R.I.C. (Lond.), Additional Superintendent, Physical Research Wing, Fertilizer (Planning and Development) India Ltd., for his stimulating and continued interest in this study, for his untiring advice and for providing all necessary facilities to carry out this work. I am also grateful to Dr. S.C. Chakraborty, D.Phil., Professor of Physics, Burdwan University for his stimulating interest, for his valuable advice and for his encouragement.

I am greatly indebted to Dr. S.K. Mazumdar and Mr. S. Chaudhuri of Saha Institute of Nuclear Physics, Calcutta for their very valuable discussions. My sincerest thanks are once again to Mr. Chaudhuri for his unfailing help in computation in IBM 1130 computer. I would also like to extend my sincere thanks to Prof. N.N. Saha of Saha Institute of Nuclear Physics, Calcutta for his kind permission to use the Crystallographic programmes of Saha Institute.

I am grateful to Mr. J.N. Kapoor of Chemical Research Wing for his help in preparation of the samples for the present study, for providing the chemical properties of the compounds and for his valuable discussions.
I would also gratefully acknowledge the help and co-operation of Mr. N. Mukhopadhyya of Computer Centre in standardisation of some crystallographic programmes for ICL 1901A computer system.

I am indebted to Dr. B. J. Ansari and Mr. A. K. Chakraborty for recording the infrared spectra of the compounds and for their valuable discussions. My sincere thanks are due to Dr. A. T. Balagopal and Dr. R. Chaudhuri for their help in optical study of some compounds. I would like to extend my thanks to Dr. R. K. Upadhyaya of Allahabad University for measuring the dipole moment of two samples and my thanks are also due to Dr. P. C. Shrivastava for his help in this respect.

I would like to express my deep gratitude to Dr. B. K. Banerjee, Manager (R&D) and Mr. K. C. Banerji, Superintendent, Physical Research Wing for their kind interest and encouragement in the study. My thanks are also due to the Management of The Fertilizer (Planning and Development) India Ltd. for permission to submit this thesis.

I must appreciate Mr. G. C. Chandra, for typing the thesis. Finally, I would like to express my thanks to all my friends and colleagues for their help in various ways for the progress of the work and in this
connection, I would like to make special mention of Dr. P.K. Ghosh, Dr. C. Aravindakshan, Mr. S. Banerjee and Dr. G.C. Maiti.
