CHAPTER - I

1) History of Cotton Textile Industry in India ...	1
a) Introduction, b) Early concentration and progress of industries, c) Present position	
2) Progress of the industry during the different Plan periods.	
3) History of growth in Maharashtra	
a) Early history 1855-1918, b) Second phase of the industrial growth 1920-47, c) Present position.	
4) Conclusion	

CHAPTER - II

Raw materials for the industry	27
a) Introduction, b) Cotton tracts in Maharashtra, c) Area and production, d) Production trends, e) Regional variation of cotton production and productivities, f) Production and rainfall g) Average yield of cotton, h) Commands on low productivity.	

CHAPTER - III

Infra-structure for industrialisation ... 58

- a) Introduction, b) Mode of transport :
- i) Head Loads, ii) Carts, iii) Motor trucks, iv) Railways, and v) Water transport.
- c) Relative importance of different types of transportation, d) Freightage and e) Conclusion.

CHAPTER - IV

Structure of the Cotton Mill Industry in Maharashtra - ... 72

- a) Introduction, b) Trends in the size of industrial units in cotton mill industry in Bombay and its suburbs, i) Size of spinning section, ii) Size of Weaving Section, c) Trends in the size of industrial units in cotton mill industry in the rest of the State : Spinning and weaving repeatedly, d) Regional variation of size, e) Relation between size and rate of profit and f) Conclusion.

CHAPTER - V

Locational trends in Cotton Textile Industry in Maharashtra - ... 93

- a) Locational factors b) Distribution of industry, c) Present position of mills, d) Regional distribution of spindles, looms and labour, e) Location quotient, f) Factors for the dispersal, g) Remarks.

CHAPTER - VI

Trends in production - finished goods	...	109
a) Introduction, b) Consumption of mills and production pattern, c) Production of raw cotton and consumption, d) Production trends, e) Production of cloth variety, f) Causes of low production, g) Government measures for raising the production and working group report and h) Remarks.		

CHAPTER - VII

Labour in Cotton Mill Industries	...	125
a) Labour recruitment, b) Supply of labour, c) Size of labour force, d) Employment sex and age, e) Classification of workers according to occupation and status, f) Wage structure, g) Classification to workers by system of wage payment, h) Productivity of labour, i) Wage Board Report.		

CHAPTER - VIII

Influence of physical factors for cotton cultivation	150
a) Climatic conditions favourable for cotton culture, b) Rainfall, c) Climatic Division, d) Cotton seasons, e) Soils - types of soils f) Cultural operation and harvesting - after cultivation - manuring, g) Irrigation for cotton cultivation, h) Pests and diseases, i) Plant protection.			

CHAPTER - IX

Technology for Cotton Textile Industry	...	185
Factory processing - a) Ginning and Pressing, b) Spinning, c) Weaving.		

CHAPTER - X

Problems of Cotton Textile Industry	...	194
Introduction - problem of raw cotton - inflation - high wage - rehabilitation and modernisation - need for more automatic looms - power supply - transport problem - high cost of production - problems of decentralisation - different Committees Reports.		

CHAPTER - XI

Marketing	215
a) Basic concept of marketing, b) Marketing of raw cotton -			
i) types of markets , ii) list of wholesale markets, iii) type of functionaries in the markets, iv) methods of sale, and			
v) marketing season.			
c) Population relation with marketing,			
d) Transport relation with marketing,			
e) Marketing system, f) Marketing problems,			
g) Foreign marketing, h) Conclusion.			

	Page
<u>CHAPTER - XII.</u>	
Place of Cotton Textile Industry in the industrial economy of Maharashtra ...	238
a) Producer of cotton and cotten goods,	
b) Earner of national income,	
c) Producer of textile machinery industry,	
d) Profitability ratio with other industries.	
<u>CHAPTER - XIII.</u>	
Future Developments - Some suggestions ...	248
APPENDIX
SELECTED BIBLIOGRAPHY ...	284
