

LIST OF TABLES

1. Progress of cotton mill industry since 1854 to 1977.
2. Distribution of textile mills in India - Statewise in 1976
3. Cotton Textile - Targets and achievements (mill sector only)
4. Progress of mill building in Bombay during the first 70 years of its developments (1855 to 1925).
5. Distribution of mills besides Bombay (1932-33).
6. Change in production of yarn from 1921-22 to 1938-39.
7. Progress of industry in island of Bombay and the combined Maharashtra and Gujarat State since 1926-47.
8. Present position of Industry since 1960-76
9. Characteristics of chief cotton growing tracts in Vidarbha region.
10. Characteristics of chief cotton growing tracts in Marathwada region.
11. Characteristics of chief cotton growing tracts in Khandesh
12. Characteristics of chief cotton growing tracts in Deccan Canal Zone.
13. Area (irrigated and unirrigated) production and yield of cotton per hectre (1955-56 to 1969-70).
14. Calculation of trend value - production of cotton in Maharashtra.
15. Calculation of trend value - Production of cotton in Vidarbha.

16. Calculation of trend value - Production of cotton in Poona division.
17. Calculation of trend value - Production of cotton in Marathawada.
18. Calculation of trend value - Production of cotton in Khandesh
19. Targets and achievements of cotton production (1969-74)
20. Percentage of increase or decrease in yield per hectre
21. Relation between yield and production by ranking.
22. Percentage of cotton area and total cropped area.
23. Area production and yield per hectre.
24. Yearly average yield per hectre in Maharashtra and Punjab.
25. Road-mileage in relation to area and population.
26. Minimum weight for a wagon.
27. Arrivals of cotton by different means of cotton
28. Railway traffic - wagon loaded (in thousands)
29. Flow of cotton from different ports of India (1970-75)
30. Frequency distribution of spindle activity 1961-76.
31. Relative and absolute change in Group frequencies (Spinning Section - 1961-76).
32. Frequency distribution to loom activity (1961-76)
33. Relative and absolute change in Group frequencies (Weaving Section - 1961-76).

34. Frequency distribution of spindle activity - rest of the State (1961-76).
35. Relative and absolute change in group frequencies - rest of the State (Spinning Section).
36. Frequency distribution in loom activity - rest of the State.
37. Relative and absolute change in group frequencies (weaving Section)
38. Regional variation in size of cotton mill industry in Maharashtra except Bombay.
39. Relation between size and rate of return on share-holders equity.
40. Size and profitability
41. Difference in rate of return on share-holders equity.
42. Relative position in production and consumption of cotton in Maharashtra and in India.
43. Location quotient of cotton mill industry in India.
44. Present position of mills.
45. Economy distribution in cotton mills
46. Trends in the localisation of cotton mill industry from 1956-76 (variation and location quotient).
47. Trends in the localisation of cotton mill industry from 1956-76 (variation in the quotient of localisation).
48. Consumption of cotton and production of yarn and cloth - Bombay and rest of State (1970-76).

49. Cotton production and consumption by mills in Maharashtra (1971-75)
50. Calculation of trend value by the method of moving average for the cotton mill industry in Maharashtra (1966-76).
51. Production trend in Bombay (1965-76).
52. Production trend in rest of Maharashtra (1967-76).
53. Production of cloth - varietywise in Bombay 1960-72.
54. Production of cotton - varietywise in rest of Maharashtra (1966-76).
55. Average price of cotton in Bombay market.
56. Comparison between the total industrial labour and employment in cotton mills (1961-76).
57. Daily average number of workers in cotton spinning and weaving mills (1960-76).
58. Average number of women workers in cotton textile industry (1951-76).
59. Percentage of workers in important occupation in few selected stratum.
60. Percentage distribution of workers by employment status in few selected centres.
61. Average wage rates of workers in important occupations for selected centres.
62. Occupationswise renking of average earning per day.
63. Average earning of women workers.

64. Difference between average earnings of men and women
65. Distribution of selected occupations by system of payment.
66. Average production of cloth per labour in Maharashtra
(1963-76).
67. Character of chief cotton growing areas in Maharashtra.
68. The name of improved varieties with their seed rates.
69. Normal period of sowing and picking of cotton.
70. Schedule of control measures for the pests of major importance of cotton in Maharashtra State.
71. Schedule plant protection for irrigated and rainfed cottons
72. Food prices and cloth consumption.
73. Wage rate in different mill areas.
74. Cost of production figure
75. Normal period of cotton marketing in Maharashtra -
variety-wise.
76. Traditional channels of cotton textile marketing in Maharashtra.
77. Growth of population in Maharashtra
78. Percentage of urban and rural population
79. Per capita income and cloth availability

80. Export position of India and earning of foreign money.
81. Production and consumption of cotton in Maharashtra.
82. Trends in the growth of excise duty.
83. Production of textile machinery.
84. Export and import of textile machinery.
