

Acknowledgement

It is a pleasure to express my deep sense of gratitude to my respected teacher Prof.S.K.Siddhanta, erstwhile Professor and Head of the Department of Chemistry, The University of Burdwan (now retired), whose enthusiastic guidance and keen supervision during the entire period of this work will remain as a valuable treasure in my memory. I wish to record my indebtedness to Dr.G.S.De, Reader in Chemistry, University of Burdwan and Prof.R.L.Dutta, Head of the Department of Chemistry, University of Burdwan, for their valuable suggestions and advice.

I would like to record with appreciation the co-operation and encouragement, I have received from Mr.H. C.Dhar, Mr.B.K.Neogi and my other fellow workers for their help during my experimental work and preparation of the thesis.

My grateful thanks are also due to the University Grants Commission, New Delhi, for offering me a Junior Research Fellowship during the tenure of which the work embodied in this thesis has been carried out.
