

## CONTENTS

### CHAPTER I : Potential Energy curves for different Electronic States of the diatomic molecules.

- 1.1 Introduction
- 1.2 RKR method
- 1.3 Jarman Method
- 1.4 Dissociation Energy
- 1.5 Empirical Potential Energy functions
- 1.6 Results and Discussion
- 1.7 References

### CHAPTER II : Estimation of Molecular Constants

- 2.1 Introduction
- 2.2 Dependence of the relations
- 2.3 Results and discussion
- 2.4 References.
