ACKNOWLEDGEMENT

With immense gratitude and deep commitment, I express my sincere thanks to Dr. K.A Kumar, my Supervising Teacher for his scholarly guidance, incessant encouragement, creative criticism and timely advice at every stage of this study.

I express my deep gratitude to Dr. (Mrs.) Razeena Padmam, Director, Faculty Members and Office Staff, School of Behavioural Sciences, Mahatma Gandhi University, Kottayam for allowing me to use the facilities available in the department and for giving full professional and administrative support throughout the study.

I express my sincere thanks to Dr. K. Mohandas, Director, Sree Chitra Tirunal Institute of Medical Sciences and Technology, (SCTIMST), Thiruvananthapuram for giving me permission and providing all institutional support for carrying out this experimental research study.

My obligation to Dr. K. Radhakrishnan, Head Department of Neurology, SCTIMST is beyond expression. Without his wholehearted support, scholarly guidance, encouragement, I would not have been able to complete this work.

I thank Dr. Geroge Mathew, Former Head, Department of Psychology, University of Kerala for guiding me in the translation and standardization of Epilepsy Psycho-Social Effect Scale (EPSES) and Quality of Life in Epilepsy Inventory (QOLIE: 31).

I thank Dr Chaplin J.F. (London) and Dr Cramer J.A (USA) for permitting me to translate and standardize the EPSE Scale and QOLIE:31 originally developed by them.

I express my sincere thanks to Dr. Sanjeev V. Thomas, Additional Professor of Neurology, SCTIMST for extending all professional support and permitting me to use the Washington Psycho-Social Seizure Inventory (developed by Carl Dodrill) adapted to Malayalam by him.
I thank Dr Vinod Kumar and Dr Mohandas former Research Scholars of M.G. University, Kottayam for permitting me to use the Malayalam version of State-Trait Anxiety Scale and Depression Inventory standardized by them.

I thank Dr Immanuel Thomas, Dr Sam Sanand Raj, and Dr Santhosh Kumar, Department of Psychology, University of Kerala for permitting me to use the Self-Esteem and Locus of Control Scales developed by them.

I thank Dr Heim Weinberg, (Israel), Dr Sabar Rustomjee (Australia), Dr Bernard Straus (USA), Dankwart Mattke (Germany), all leaders of the International Association of Group Psychotherapy (IAGP) for giving me all professional support, research inputs and suggestions at various stages of this research work.

I thank Dr. S. Sankara Sarma, Additonal Professor, Bio-Statistics and Dr V. Ramankurty, Visiting Professor AMCHSS SCITMIST, and Dr P.B. Sudev, Population Research Centre, University of Kerala and Shri T.S.N. Pillai, Retd Professor of Social Work, Loyola College of Social Sciences, Thiruvananthapuram for their guidance and professional support.

My sincere thanks are due to Mr. G. Mohandas, Yoga- Meditation Instructor, my beloved patients and their family members who cooperated in carrying out the study.

I also thank to my wife Lisa, S. daughter Sija Chandran and son Sijesh Chandran for co-operating with me in completing the study.

Jayachandran, D.
