ACKNOWLEDGEMENTS

It is of course difficult to acknowledge the indebtedness individually to all those who have assisted the author in the preparation of this thesis. Nevertheless the author is thankful to all her friends and colleagues for their help and encouragement.

She records whole heartedly her grateful thanks to Dr. K.V. Sivakumar, Lecturer in Physics, Autonomous Post-Graduate Centre, Anantapur for his inspiring guidance and constant help through out the progress of the work. Dr. K.V. Sivakumar was always available with his genuine suggestions with out which the thesis would not have come up to the present form.

She wishes to express her sincere thanks to Prof. S.V. Subrahmanyan, Head of the Department of Physics, Autonomous Post-Graduate Centre, Anantapur for providing the facilities to carry out the research programme and also for his keen interest in this work.

The author desires to express her thanks to Prof. P. Jayarama Reddy for providing the facilities to complete a part of the present work at the physics laboratories of Sri Venkateswara University.
The author is very much indebted to Dr. N. Manohara Murthy, Lecturer in Physics, for his helpful suggestions during the course of research work.

The author takes this opportunity to thank Mr. P.M. Reddy and Mr. B.J. Rao for their immense help in various ways. The author thanks are due to her friends Miss. V. Suguna and Miss. B. Vasantha for their help.

The author takes this opportunity to record her appreciation to her aunt Dr. Pushpavathi Devi and to her mother for their constant encouragement to complete the work.

Finally the author is obligated to the authorities of Autonomous Post-Graduate Centre, Anantapur, for providing the necessary facilities for carrying out the research work presented in this thesis.
