ACKNOWLEDGEMENTS

I express my heart-felt humble gratitude to my revered teacher, mentor, philosopher, source of inspiration and guide Dr. (Mrs.) M.C.S. Subha, Reader in Chemistry, Sri Krishnadevaraya University, Anantapur for her perceptive observation, penetrating cordial comments, simulating discussion, insightful suggestions and personal care which have created confidence in me throughout the progress of the work. I am very much beholden to her for affectionate interest in me even with her busy engagements.

I am thankful to Dr. M. Subramanyam Raju, Professor and Head of the Department of Chemistry, S.K University, Anantapur for providing me the necessary facilities to carry out my research work and helping me in several aspects.

I am grateful to express my sincere thanks to Dr.K.Chowdoji Rao, Reader, Department of Polymer Science and Technology, S.K University for his constant enquiry about the work, valuable suggestions, proper guidance, critical appreciation of various aspects of work at every stage which have greatly helped me throughout the period of my research work.
I am very much thankful to Dr. G. Narayana Swamy, Lecturer in Chemistry, S.K University for his constant encouragement, valuable suggestions, help and inspiration during the course of my work.

I express my thanks to Prof. A. Varadarajulu, Dr. S. Venkata Naidu and Dr. K. Mohana Raju, Department of Polymer Science and Technology, S.K. University for their helping hand at all times of my need.

My most sincere and heartful indebted thanks to my parents Prof. S. Kamakshaiah and Smt. Rajyalakshmi for their unyielding faith, moral support, inspiration and encouragement that have been the very stimulus for my development.

I affectionately acknowledge the help and encouragement that I received from my family members who have been the source of constant help and encouragement during the course of my research work.

I wish to express my sincere thanks to Sri V. Sahadevan for typing the dissertation neatly.

S. SRILALITHA.
