ACKNOWLEDGEMENTS

I express my profound sense of gratitude to Prof. D. Venkata Reddy, B.Sc. (Hons.), M.Sc., Ph.D., Department of Chemistry, Sri Krishnadwaraya University, Anantapur for his illuminating guidance and constant encouragement throughout the progress of my research work. His abounding enthusiasm, stimulating discussion and critical appreciation of various aspects of problems were invaluable.

Grateful appreciation is extended to the Faculty members and all my research colleagues for their generous cooperation, particularly to Dr. K. Hussain Reddy and Sri K. Giridhara Reddy.

Special thanks go to Mr. L.D. Prabhakar, my research colleague for his unstinting help and cooperation, all through my research work.

Grateful thanks are due to Sri P. Ravi Prasad, Scientist, Regional Research Laboratories, Hyderabad for his help in C H N analysis.

Mr. V. Sahadevan is thanked for typing the thesis with indulgence and great skill.
It is with pleasure that I acknowledge my indebtedness to the Council of Scientific and Industrial Research, New Delhi, India for awarding me a research fellowship for carrying out this work. I also wish to record my deep gratitude to the authorities of Sri Krishnasvaraya University for providing the necessary facilities.

Finally, I am deeply indebted to my family members who have supported me during the course of my research work. Their understanding, encouragement and moral support has 'kept me going'.

K.M.M.S. PRAKASH.
