ACKNOWLEDGEMENTS

At the outset, I extend my sincere thanks and gratitude to Dr. B. Venkatappa, Professor in Immunology, Department of Microbiology, Sri Krishnadevaraya University, Anantapur (A.P.), India, for suggesting the problem and guidance. I am grateful for his valuable suggestions and constant encouragement throughout the research programme.

I am thankful to the faculty of Department of Microbiology, Sri Krishnadevaraya University, Anantapur (A.P.) India, Dr. K. Venkateswarulu, Professor and Dean of Life sciences; Dr. P. B. B. N. Charyulu, Professor and Head of the Department, Dr. R. Ramanjaneyulu, Professor; Dr. V. Rangaswamy, Professor and Dr. B. Rajasekhar Reddy, Professor for their valuable suggestions.

I wish to express my deepest gratitude to Dr. G. Shivaprasad, Director, Sri Siddhartha Medical College and Research Centre, Tumkur (Kar) India, for encouraging me to do Ph.D and also my sincere thanks to Dr. A. G. Srinivasmurthy Principal, for his support during the entire course of the study. I am grateful to Dr. H. Shankaranarayana, Professor and Head of the Department of Microbiology, for their moral support. My sincere thanks to Mr. Sudeepkumar M, Mrs. Veena Krishnamurthy and other colleagues for their advice throughout the course of study.

I also thank the non-teaching staff of the Department of Microbiology. I wish to reveal my thankfulness to co-research scholars of Department of Microbiology, Mrs. Anuradha, Miss Shobha and others of Sri Krishnadevaraya University, Anantapur (A.P.), India for their help and cooperation during the course of my research work.
My special thanks to Dr. (Miss) A.N. Chandrakala and Mr. P.T. Rudrappa, Senior Research Scholars for their kind support and valuable suggestions during the course of my research work.

Finally, I would like to convey my profound sense of gratitude to my elder brother Mr. S.C. Prabhakar and other family members and well wishers for their cheerful encouragement during the work. And also my thanks to my wife Mrs. Nagarekha Chandrashekar and my children Chi. Dhruvasagar.S and Chi. Sachin.S for moral support in this work.

My special thanks to Mr. Vinay M. colleague and friend for his meticulous computerized output and for obliging to all my request.

I am also grateful to Sri. Krishnadevaraya University, Anantapur, (A.P.) India, for providing good facilities to complete my Ph.D work.

Last but not the least, I thank all those authors of whom a reference is made in this thesis.

Any omission in this brief acknowledgement does not imply ingratitude.

Date: 20th March 2007
Place: Anantapur.

Mr. S.C. Chandrashekar
