ABSTRACT

CHAPTER 1 INTRODUCTION

CHAPTER 2 ON COMMUTATIVITY OF SEMIPRIME RINGS WITH SOME IDENTITIES
  2.1. Some elementary commutativity theorems for non-associative rings.
  2.2. Some commutativity theorems for associative rings.
  2.3. Some results on the commutativity of accessible rings.

CHAPTER 3 ON COMMUTATIVITY OF PRIMITIVE RINGS WITH SOME IDENTITIES.
  3.1. Commutativity theorems for non-associative primitive rings with \((xy)^2-(yx)^2 \in Z(R)\)
  3.2. Commutativity theorems for non-associative primitive rings with \((xy)^2-xy \in Z(R)\)
  3.3. Commutativity theorems for non-associative primitive rings with \((xy)^2-y(x^2y) \in Z(R)\)

CHAPTER 4 COMMUTATIVITY OF PERIODIC RINGS
  4.1. Some commutativity results for periodic rings.
  4.2. Commutativity results for s-unital rings and periodic rings.
  4.3. Weakly periodic rings with conditions on commutators.

CHAPTER 5 PROBLEMS FOR FURTHER STUDY
  5.1. On the commutativity of prime rings with derivation.
  5.2. Structure of periodic D-rings and weakly periodic D-rings.
  5.3. Commutativity results for generalised quasi-periodic rings.
