Acknowledgement

It is a great pleasure to express my deep sense of gratitude to my respected teacher, Professor S.K. Siddhanta, erstwhile Professor and Head of the Department of Chemistry of the University of Burdwan (now retired), whose enthusiastic guidance and valuable supervision during the entire period of this work, will remain as a treasure in my memory.

I wish to show my indebtedness to Prof. R.L. Dutta and Prof. G.S. De, both of the University of Burdwan, for their good wishes, valuable advice and encouragement. I also like to record with appreciation, the cooperation, and encouragement, which I received from Dr. B. Ruj, Dr. B. K. Neogy, Mr. R. N. Sinha, Dr. B. R. Das, Mr. A. B. Sinha and my fellow workers for their help during the progress and completion of the work.

I am also thankful to the University Grants Commission, New Delhi, for offering me a Teacher Fellowship, during the tenure of which the work embodied in the thesis, has been carried out.

Department of Chemistry, The University of Burdwan, Burdwan 713 104.
