ACKNOWLEDGEMENTS

It is an honor for me to express my deep sense of gratitude to Prof. H.D. Revanasiddappa, Professor in Department of Chemistry, University of Mysore, Manasagangothri, Mysore, whose insightful guidance, constant encouragement and unstinted support have been an inspiration to me. His enthusiasm and patience helped me a lot during my studies.

I owe my deepest gratitude to SC/ST cell, University of Mysore, Mysore, for the award of Junior Research Fellowship.

I am highly indebted to University Grants Commission, New Delhi, for the award of Rajiv Gandhi National fellowship for SC/ST candidates.

I thank to Prof. H. S. Yathirajan, Chairman, Department of Studies in Chemistry for his continuous support during my research period.

I am highly grateful to Prof. K.S. Rangappa, Prof. D. Channe Gowda, Prof. P. Nagaraj, Prof. K. Basavaiah, Prof. K. M. Lokanath Rai, Prof. Nagaraja Naik, Prof. G. Nagendrappa, Prof. S. Ananda, Prof. S. Shashikanth, Dr. Y. B. Basavaraj, Dr. K. N. Mohan and non-teaching staff of the Department of Studies in Chemistry, University of Mysore, Mysore for their cooperation during my stay in this Department. I sincerely thank the University of Mysore and DOS in Chemistry for providing me the necessary facilities (FT-IR, Electronic Spectral and Molar Conductance Measurements) for pursuing my research work.

I am thankful to Prof. G.M. Shashidhar, Head, Department of Polymer Science, SJCE, Manasagangothri, Mysore for extending the facilities of TG analysis of the metal complexes.

My sincere thanks to Dr. Ramachandra Kini, Associate Professor, DOS in Biotechnology, for providing facilities to perform DNA cleavage studies.

I am extremely grateful to the authorities of IIT-Bombay for providing instrumentation facilities in carrying out my research work.
I gratefully acknowledge for the assistance and help that is beyond measurement to my research colleagues; Dr. Veena M. A., Dr. Shivaprasad K., Mr. Prashanth M. K., Ms. Deepakumari H. N., Mr. Madaiah M., Dr. Vinay K. B., Mr. Malle Gowda S. M., Mr. Vasanthkumar B.C. and Mr Bensen K Abraham of Department of studies in Chemistry, University of Mysore. The excitement and interest they had in the progress of my work was very encouraging for me to see it though.

I whole heartedly thank my friends, Mr. Melvin Prasad, Mr. Chandan S and Mr. Chandrashekar, for their encouragement and innumerable help during my research work.

Words are inadequate to express my gratitude to my beloved Mother and Late Father who has been the constant source of inspiration to carry on the research and also for their keen prayers and efficacious blessings in my endeavors. I extend my acknowledgement with deep sense of appreciation the indispensable aid and encouragement for the love and support received from my parents.

My special thanks are also due to my brother Mr. Padmanabha L., for his warm and lovely encouragement, who not only tolerated the occupational agonies but also for serving as my keenest critic of my personal life as a whole.

I could not end this preface without an acknowledgement to number of authors whose work have been freely consulted, while writing this thesis.

Finally, there are many faculty colleagues, friends and student both in Chemistry Department and elsewhere, who encouraged and helped me during the period of this investigation and I hope they will accept my sincere thanks individually and collectively for all they did.

I profusely thank Madhu Computers for the neat processing of this thesis and also for their cooperation and support.

L. Shiva Kumar
