ACKNOWLEDGEMENT

It has been my long desire to do the research. Practical difficulties and lack of facilities, including the non-availability of suitable persons to supervise, would have almost killed my desire, if I had not met Dr. S.K. Sharmah M.Sc., M.S., Ph.D. retired professor, Gauwahati University and Dr. K.P. Sarma M.Sc., Ph.D. Lecturer, Assam Engineering College, Guwahati. I am grateful to them. I express my sincere thanks to Dr. D. Goswami, Head and Professor, Environmental Science, GU, Mr. R.K. Dutta ex. GM (W), HPCL, Dr. M.K. Kalita, Registrar, IASSA, Guwahati, and Dr. K.K. Das, Department of statistic, GU.

I acknowledge with gratitude to the management, M/S Hindustan Paper Corporation Ltd., for granting permission, vide letter no. PER: 02:16:00:93/7400 dated 28th July 1993, to pursue research work in the field of environmental impact—characterization of effluent in pulp and paper industry (NPM).

I have received full cooperation from my wife Smt. Panchali in tackling the family front. Both my children Bikramjit and Reethima have extended a helping hand of understanding and shared my problem and difficulties. I am overwhelmed with their support and recording sincere appreciation.

DATED. 21-4-2003
