ACKNOWLEDGEMENTS

The author feels immense pleasure to express his heartfelt gratitude, obligation and appreciation to Dr. G.U. Ahmed, Professor and Head, Department of Biotechnology, Gauhati University and Dr. H. Rahman, Joint Director, ICAR Complex for NEH Region, Tadong, Gangtok-73710, Sikim for their esteemed guidance, constant encouragement, polite behaviour and constructive criticisms during the entire period of investigation and preparation of the manuscript.

The author records its profound gratitude to the commissioner Veterinary Department, Govt. of Assam, and owes a lot to Dr. A.K.Kataki, Director, A.H. & Vety. Department, Guwahati for their positive attitude and encouragement for undergoing Ph.D. research. Sincere thanks are also due to Dr. P. Das, ex Director, Dr. J.M. Choudhury, Addl. Director and Dr. K. Bordoloi, Joint Director I.V.B., Khanapara, A.H. & Vety. Department, Assam for their sagacious counsel.

The author recalls the enormous gratitude to Dr. D. Sarma, National Fellow, Assam Agricultural University and Dr. M. Deka, Reader, Department of Biotechnology, Gauhati University; Dr. R. Roy, Associate Professor, Department of Pharmacology, College of Veterinary Science, Khanapara and Dr. A.K. Hazarika, Associate Professor, Department of Microbiology, College of Veterinary Science, A.A.U., Khanapara whose contributions to this present investigation are too numerous to mention.

The author gratefully acknowledge his sincere thanks to Dr. G.C. Hazarika, Professor and Head, Department of Veterinary Public Health, and Dr. K. Sharma, Associate Professor, Department of Veterinary Microbiology, College of Veterinary Science, A.A.U., Khanapara for their keen and positive attitude in many different ways.

The author wishes to express his sincere thanks to Dr. R. Sharma, Associate Professor, Department of Veterinary Microbiology, College of Veterinary Science, AAU, Khanapara, Dr. A. Chakraborty, V.A.S., AHC and Dr. S. Rajkonwar, V.A.S., IVB, Khanapara for their multifarious helps and valuable suggestions.
Sincere thanks are due to Dr. S.C. Handique, Deputy Director, Animal Health Centre, and Dr. N. Phukan, Dy. Director, R.F.T.L., Khanapara for their valuable suggestions.

Distinctive words of thanks are due to professional brothers of the author Dr. Krishna Kanta Sharma, Dr. Animesh Deka, Dr. Manoj Kr. Bora, Dr N.K. Singh, Dr. (Mrs.) I. Das and Master Jnanjyoti Deka for their ever willing co-operations.

The author conveys the depth of his feeling to his uncle Sri Chandradhar Hazarika, Decial Village, Sibsagar for his valuable help in identification and introduction to some of the medicinal plants of Assam.

The author is thankful to his friend Dr. D.C. Pathak, Associate Professor, Department of Pathology, College of Veterinary Science, A.A.U., Khanapara for his valuable suggestions and multifarious help in histopathological work.

The author respectfully acknowledges the services rendered by the untiring assistance – Late Rajmohon Barman, Sri Dhiren Deka, Sri Binandi Das and Sri R. Deka, auxiliary staffs of Quality Control Unit of IVB, Khanapara.

The author is thankful to Mr. Kumud Deka, Department of Pathology, College of Veterinary Science, Khanapara, Guwahati-22, who took the pain in doing D.T.P. of the manuscript beautifully and skillfully and also for beautifully binding the thesis.

Last but not the least, the author feel deep reverence and owes a lot of his wife Smti Binu and sons Sri Basobjyoti and Sri Udhabjyoti for their constant inspiration and without which it would not been possible to complete this thesis.

Dated, Guwahati

The 3rd January 2008.

Pradip Hazarika
